

BEEM - Android XMPP - Feature #289

Colored Beem-Icon according to status

07/27/2010 03:48 PM - Anonymous

Status:	Closed	Start date:	07/27/2010
Priority:	Normal	Due date:	
Assignee:	Vincent Véronis	% Done:	100%
Category:	User Interface	Estimated time:	0.00 hour
Target version:	0.1.8		
Description			
Now the Beem-Icon in the Android Notification bar (on top) is shown always in a grey color.			
The colored Beem-Icon in the Anroid Notification bar should be colored according to the actual state (e.g. green vor online, red for away, yellow for busy, ...).			
This allows me see every time in which status (online, away, ...) I am whitout the need to open the Beem Status Form.
