BEEM - Android XMPP - Bug #324

Authorization request

12/20/2010 09:00 AM - Anonymous

Status:	Closed		**Start date:**	12/20/2010
Priority:	Normal		**Due date:**	
Assignee:	Frédéric Barthéléry		**% Done:**	100%
Category:	XMPP		**Estimated time:**	0.00 hour
Target version:	0.1.5			
Affected version:	0.1.x		**Locale:**	

Description

If you receive more than 1 authorization request you can only accept one of them. If you try, to select the second request, beem isn't doing anything.

Steps to reproduce:

1.) Close beem
2.) Send up to 3 authorization request to your account
3.) Start beem
4.) Click at the first authorization request in notification bar
5.) Click at the next authorization request in notification bar
6.) After a restart of beem you can authorize the second.

Also if beem is connection and you click at the authorization request beem will crash.
