## **BEEM - Android XMPP - Support #327**

## Security issue with PHP Android String Translation Tool (PASTT)

12/25/2010 12:16 AM - Vladimir Rutsky

Status:	Closed	Start date:	12/25/2010
Priority:	High	Due date:	
Assignee:	Vincent Véronis	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			

### **Description**

Hello,

PASTT script used at <a href="http://dev.beem-project.com/translation/">http://dev.beem-project.com/translation/</a> has insufficient input sanitization: <a href="https://code.google.com/p/android-php-translator/issues/detail?id=13">https://code.google.com/p/android-php-translator/issues/detail?id=13</a>

By exploiting this vulnerability remote user can create arbitrary directory in file system and possible retrieve or modify some other web server information (with permissions of PHP interpreter).

#### History

#### #1 - 12/25/2010 12:25 AM - Vladimir Rutsky

Ops, correct PASTT location is <a href="http://dev.beem-project.com/translation/index.php">http://dev.beem-project.com/translation/index.php</a>

#### #2 - 12/25/2010 01:17 AM - Frédéric Barthéléry

- Status changed from New to Assigned
- Assignee set to Vincent Véronis
- Priority changed from Urgent to High

Thanks for the report. The translation site is now disabled until we got a solution. Merry Christmas  $^{\wedge \! \wedge}$
