

## BEEM - Android XMPP - Bug #389

### Chat window not updating

<b>Description</b>			
0.1.6 and 0.1.7rc1 do not update the chat window content so your partner can only send one message but own messages appear instantly. After I cannot see any new incoming messages. Only workaround is to flip the device so the screen orientation gets changed. That proves the messages are being delivered to the device but chatting like that is funny looking at best.			
I am using an Acer Iconia A100 with Android 3.2 (kernel 2.6.26.3)
