

BEEM - Android XMPP - Bug #444

Disconnets+terminates after a few minues of idling

07/22/2012 11:15 AM - Anonymous

Status:	New	Start date:	07/22/2012
Priority:	Urgent	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Locale:	
Affected version:	0.1.7		
Description			
What happens: If I leave my HTC Desire untouched for a few minutes, Beem will always disconnect and terminate. Expected behaviour: Beem should remain online and listening for messages. Set to 'urgent' because: Instant messengers run in the background to allow others to contact you when they need to. The bug described here renders that functionality naught.
