

BEEM - Android XMPP - Feature #463

Higher resolution toolbar and application icons

11/16/2012 01:46 AM - Daniel Aleksandersen

Status:	New	Start date:	11/16/2012
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	User Interface	Estimated time:	0.00 hour
Target version:			
Description			
The application and the in-app icons (toolbar/status) are not impressive on the Nexus 7's display. (CSS pixel density of 1.5, or "high resolution"/HiDPI.) They should be juiced up to keep a high quality feel of the application.

I agree. We are looking for graphical artist and designers.

The source files of the graphics are available in the files section of the website
